

S & N LABS

FEE SCHEDULE

Fourier-Transform Infrared & Raman Spectroscopy

Qualitative (all techniques)	200.00 /each
Quantitative	300.00 /each
Micro-Raman surface mapping (up to 5 hours)	500.00 /each

Electron Microscopy

Scanning electron microscopy	400.00 /hour
Energy-dispersive x-ray analysis	150.00 /each or 400.00 /hour
Multi-element x-ray image	250.00 /each
Multi-element x-ray imaging (multiple locations)	400.00 /hour

Optical Microscopy

Polarized light examination (typical)	100.00 /each
Photography/photomicroscopy	75.00 /each

Chromatography

GC-MS qualitative (typical sample)	350.00 /each
GC-MS quantitative (typical sample)	500.00 /each
GC-MS arson evidence or odor analysis	350.00 /each
GC-MS/MS, GC-MS/CI, LC-MS or LC-MS/MS	call for quote
High-performance liquid chromatography (typical)	250.00 /each
Ion chromatography (standard cations or anions)	150.00 /each
<i>(Set up fees are required for some analyses.)</i>	

Nuclear Magnetic Resonance Spectroscopy	250.00 /each
--	--------------

X-Ray Diffraction	350.00 /each
--------------------------	--------------

Miscellaneous

Consulting (legal and industrial)	500.00 /hour
Thermal analysis (TGA, DSC)	200.00 /each
Particle size analysis	150.00 /each
pH analysis	50.00 /each
Ultraviolet-visible spectrometry	100.00 /each
Formulation breakdown	call for quote
Sample preparation	no charge for typical samples
Sample filtration	75.00 /each
Sample return (USPS – minimum)	10.00
Priority service (typically 1-2 business days)	100% surcharge
Minimum billing	100.00

These fees are for typical samples and are accurate as of 9/18/2018, subject to change without notice. Samples are held for 30 days from report date. If storage beyond this time is required, arrangements must be made with the laboratory.
